For Year 8 and 9 only – Previous data is shown including Depth of Understanding and Attitude to Learning from their last report.

On the settling in report, a grade for how well the student has settled into the group is shown.

The attitude to learning shows the students attitude and response to the subject/lessons and the behaviour column is how they conduct themselves in the lesson.

In year 9, students can achieve merits and will show a Y in the Merit column. A merit is awarded if most of the a-e grades are a's and bs or at the discretion of the class teacher if they feel the student has done some outstanding work/worked well in the reporting period. These are then converted into achievement points – 1 Merit = 2 achievement points and get added to the student's points after the report has gone home.
